

Weight Loss Medication Pricing

Sep 26, 2026 · @Aerilynn

How Pricing Works

Every price includes the pharmacy cost of the medication plus a \$100 monthly provider fee. The totals below already include both. Reclaim Wellness Members pay the price shown in the Member Price column.

Please note: this is an updated pricing structure from our previous list. Prices last updated October 24, 2025.

Ordering and Shipping

- **Pharmacy orders.** Compounded medications are ordered directly through the pharmacy. Shipping times are estimates and depend on each pharmacy's current volume.
- **Payment.** Invoices not paid within 48 hours will be cancelled.
- **Shipping restrictions.** Each pharmacy ships to different states. Please check the shipping notes under each pharmacy before ordering.

California Residents

Due to California state law, most pharmacies cannot ship to California directly. Striker Pharmacy is currently the only pharmacy that ships GLP-1 medications to California. If you choose a different pharmacy, a \$40 shipping fee applies, as the package will be rerouted through our office.

Sublingual and Oral GLP-1 Options

For those who prefer to avoid injections. Sublingual drops have been found to be about 70% as effective as injections when used correctly.

How to Take Sublingual Drops

1. Shake well before each use.
2. Take your prescribed dose 30 minutes before your first meal of the day.
3. Place the drops under your tongue and hold for 2 minutes for best absorption.
4. Use daily as prescribed. Consistency is what makes them work.
